Subject: Regarding position of Python Developer

Email: narola_hr@gmail.com

Dear Mr Kumar,

I am writing in response to your job notification advertised on Internshala.

In April 2018, I will complete Bachelor of Technology in Computer engineering from CGPIT, UTU, Bardoli.

I have read the entire qualifications needed in your company. So, I am applying for the job after considering the level of my exposure and skills, which is required to handle the job.

As a Computer engineer, I have good understanding of the particular computer software development and programming languages that your company working with. I have good knowledge about designing and coding software . Also i have good understanding of different operating systems like Windows and software related to them.

Apart from technical knowledge, I have good problem solving ability and communication. I believe that if given the opportunity to serve I can make significant contribution to your company. If you need more information, I can be reached at +91-7046992426 or uzumaki_naruto@gmail.com. Thank you for reviewing my credentials for this position.

My resume will give you a greater understanding of my qualifications. Please contact me if you have any questions.

Sincerely,
Dhruv Desai
